## MURDER BY GUITAR

"Rock Bottom" EP

With this brandnew band our dream come true for guitar driven power pop band taking the best of it´s genres, leave out the extras glossy magazines to stripped down sing-along songs fans put on rotation for days like us. When these kind of powerful songs are getting rarer and rarer (we don´t talk pink dots fluffy pop), we have well known protagonists here popping up. It´s two third of the LOCOMOTIONS, which debut album was one the coolest garage punk platters ever come out of sweden. On the one side, it´s Loco Lopez (vocals, dynelectron) who is one of the guitar heros in our ALIEN SNATCH! marvel set and genius songwriter of the SONS OF CYRUS and LOCOMOTIONS, on the other side we have the unstoppable Martin Savage (vocals, danelectro) of the LOCOMOTIONS, BLACKS, DIXIE BUZZARDS backed from like minded Rikard Johansson (vocals, drums). This combination making you tense and jitter till you either start to fail in rock moves or get down in awe. All songs recoderd live in an outstanding studio which put the guitar sound to a new level diamond brilliancy while damn loud and penetrating. The square but not trashy vocals add power and make the songs even more memorable songs. MURDER BY GUITAR has the magic like the REAL KIDS would back ROKY ERICKSON on TEENAGE HEAD songs, full of hooks and and loaded well placed hot licks! It´s so terrific, we signed them for a 7" and a forthcoming LP/CD right away. Our "new band" pick of the year! Pressing 500 black and 100 on clear red vinyl for mail order only.
